V.S.M Engineering College , <i>Mechanical Engineering</i> Current CGPA: 8.1	07/2023 – 04/2026 Ramachandrapuram, india
GIET Engineering College , <i>Mechanical Engineering</i> Current CGPA: 7.9	06/2020 – 05/2023 Rajahmundry, india
Surya Deep English Medium School , <i>10th Class</i> Marks: 522	04/2020 Rajahmundry , India

Technical Skills

Programming Python, JavaScript, SQL	Frontend HTML5, CSS3, JavaScript, Bootstrap
Backend Python, Django, Node.js	Libraries Pandas, NumPy, Matplotlib
Tools & Version Control Git, GitHub, VS Code, Linux	Core Concepts Object-Oriented Programming, Data Structures, CRUD, Database Integration, Responsive Web Design

Certificates

Full Stack Developer With Python Anurag It Solutions Certified	Full Stack Web Development Future Interns Certified
Designing Scalable RAG Pipelines Scaler Masterclass	

Projects

- Vehicle Service Management System**, *Python | Django | HTML5 | CSS3 | Bootstrap | SQLite | JavaScript*
Vehicle Service Management System is a web-based application designed to manage vehicle servicing operations efficiently. It helps service centers maintain customer details, vehicle information, service records, and service status in an organized manner. The system reduces manual work and makes it easier to track and manage vehicle service activities.
- Client Lead Management System (Mini CRM)**, *HTML | CSS | JavaScript | Node.js | MySQL*
Developed a Mini CRM web application to manage client leads from website contact forms. Implemented CRUD operations, lead status tracking, follow-up notes, secure admin access, and backend integration using Node.js and MySQL providing an efficient workflow for lead management.
- Pulse & Iron Gym Website**, *HTML | CSS | JavaScript*.
Designed and developed a responsive gym website using HTML, CSS, and JavaScript to promote fitness services and improve customer engagement. The website includes a modern homepage, membership plans, trainer profiles, class schedules, contact information, and a responsive design to provide an excellent user experience across all devices.
- Online Quiz Application**, *Django | Python | MySQL | HTML | CSS | JavaScript*
Developed a responsive Online Quiz Application using HTML, CSS, Bootstrap, JavaScript, Django, and MySQL, featuring user authentication, timed quizzes, question navigation, score calculation, and result history.
